Dear Elaine, Colman and Shane

Re rodents being kept at 3 Dunvale Grove.

It has come to my attention that Jessica Hearne has been keeping caged animals namely, gerbils in her room. These rodents pose a serious health threat to everyone in the house. I have given Jessica 7 days notice to remove them from the property. I have also asked Rentokil to make good any potential hazard they have caused to the room and elsewhere in the house.

In the interest of your own health please ensure that you take precautions.

<https://www.rentokil.co.uk/rodents/rodent-borne-diseases/>

I'm particularly concerned about the risk Ingestion or inhalation and would ask that you co-operate with the de-contamination which Rentokil will carry out.

Regards

Ann McDonald
